TPMEA AWARDS 2023

Now in its fifth year, the TPMEA Awards was launched to recognise the talents of individuals working within the MEA live event and production industry. With 23 categories covering the whole spectrum of services that are utilised in the realisation of an event, the TPMEA Awards is now firmly established as the must-attend industry event for the live event community.

Held annually in Dubai, the event has grown every year, with the 2022 Awards attracting nearly 500 attendees. The format of the Awards eschews the traditional formal sit-down dinner for a more relaxed

evening, allowing guests to network freely with colleagues and peers, and make new connections while celebrating the achievements of the region's top talent.

New for 2023, we will be introducing a category, The Green Award, to recognise achievements within the live event production industry for sustainable practice. This award can be for an individual, event, company or product that has helped reduce the environmental impact of the industry.
